PROJECTS

- **PADDY DISEASE RECOGNISATION USING CNN (Mini-Project)**

The main goal of this project is to find the type of disease caused to the paddy leaves as well as some other leaves. I have used **python** as my programming language and **CNN algorithm** from machine learning for detection of disease.

- **CRYPTO CURRENCY TRASCTIONS USING BLOCK-CHAIN TECHNOLOGY (Major-Project)**

The aim of this project is to transfer crypto currency from one peer to other with security. **SHA256** is one of the most popular algorithms in block-chain domain. Hence, I used it to provide security to the user confidential data. Since, **Python** is more compatible with the **block-chain technology**, I have used it as my programming language.

EXTRA/CO-CURRICULAR ACTIVITIES:

- Participated in a **webathon** that was conducted in my college in my 3rd year.
- I won 1st prize in best out of waste event in borealis in college, 2022.
